

AFRICALLI

The African Alliance for Allergy and Immunology

Free Live Online Allergy and Asthma Training for Africa

Dear colleague,

Most allergy and asthma care in Africa is given by health workers who never had dedicated allergy training. This November, you can get that training live, from anywhere on the continent.

On **19 and 20 November 2026**, the World Allergy Organization Training School, the Allergy Society of Ghana and AFRICALLI will stream the morning sessions of the Accra 2026 meeting. Expert African and international faculty will cover asthma control and treatment, food allergy, allergic rhinitis, skin prick testing, eczema therapy, angioedema and hereditary angioedema in Africa. Every session is practical, relevant to African settings, and has time for your questions.

Live online: 08:30 – 13:00 GMT (19 Nov) and 08:30 –13:30 GMT (20 Nov)

Please forward this to colleagues, trainees and your national society. The more of us who take part, the stronger allergy care in Africa becomes.

Warm regards,

Prof Michael Levin

President, AFRICALLI
